

POLICE NAB 2, SMASH THEFT RING

Minden O.P.P. believe they have cracked a widespread breakin and theft ring with the arrest of two Haliburton men this week, and they credit boot prints with helping them do it.

Police say they solved at least five breakins and two attempted breakins plus the theft of money and goods valued at over \$650 after they tracked down the culprits from boot prints left at the scene of a breakin. Police have charged Mark Randolph Nunn, 21, of Haliburton, with four counts of break, enter and theft, two attempted break and enter, and one charge each of theft under \$200 and possession under \$200.

Also charged by police is Christopher Morrow, 19, Haliburton, with four counts of break, enter and theft, two attempted break and enter and one each of theft under \$200 and possession under \$200.

Police say that of the five breakins two had not been reported to police and the attempted breakins had not been reported either.

However, the continuing investigation is leading, police say, to further thefts and breakins across Haliburton County involving other members of the theft ring.

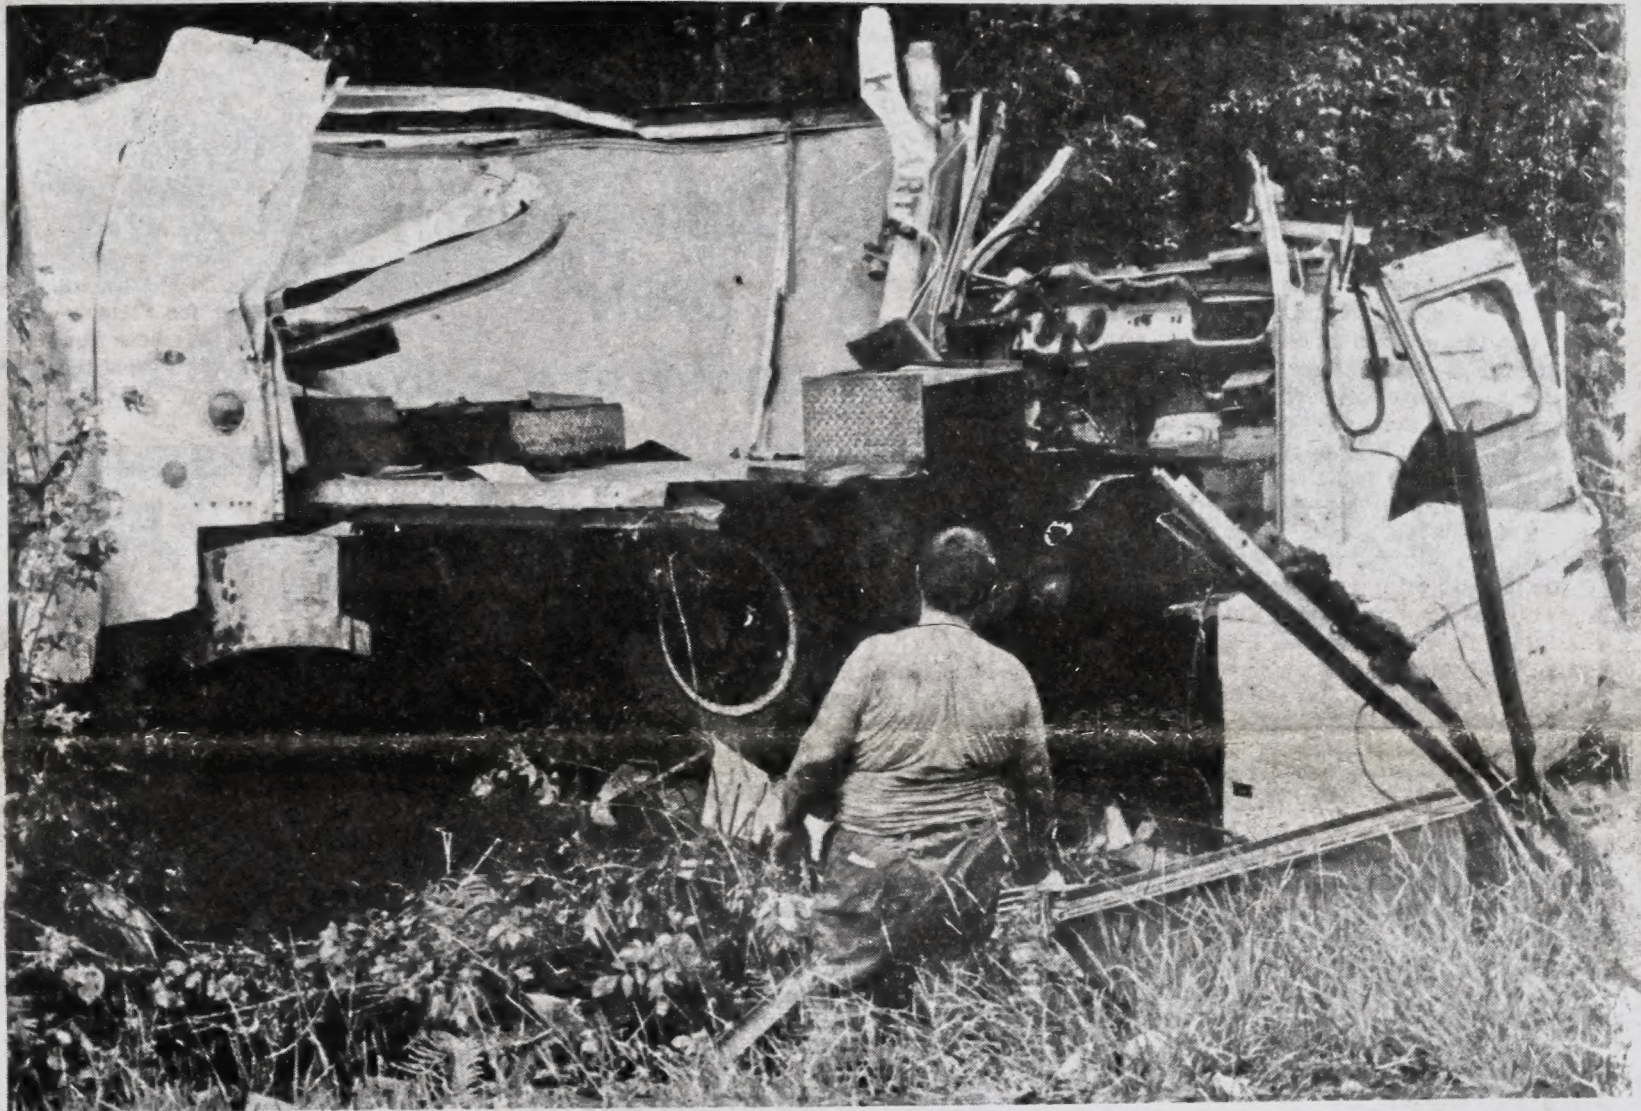

Tuesday afternoon police divers were probing the waters of Lake Kashagawigamog off Dell Haven for guns stolen from Kennedy Surplus nearly two weeks ago.

First big break for police came when Nancy's Flower Shop of Haliburton reported a breakin and the theft of \$15 in cash Monday morning. The store owner also told police of another breakin a week earlier which went unreported although \$12 in cash was stolen.

Thieves had forced a window in the latest breakin and it was there that the boot prints were spotted and traced by alert investigation. Within 24 hours police had two suspects in custody and leads on other breakins and other members of the theft ring.

In addition to the two breakins at Nancy's Flowers and the June 18-19 Kennedy Surplus breakin in which safety boots, two shotguns, a 30-30 rifle and shells all valued at \$560.20 were stolen, Coneybeare Motors reported the theft of a five-gallon gasoline tank for a boat of \$50 value.

Unreported incidents solved by police include a breakin at the Molou Theatre and theft of \$20-worth of tools, candies and chips plus two

staff photo

Demolished

A sudden mid-afternoon torrential downpour was blamed in an accident that demolished this Kawartha Dairy

truck on Highway 121 south just east of Highway 35. Driver Steve Crowe, 16, son of proprietor Don Crowe of

Minden escaped uninjured. He was returning from Kinmount at the time. He said afterwards that his lightly

loaded truck skidded on a downgrade in the heavy rainfall and into the 10-foot-deep ditch where it came to rest

on all four wheels but facing back the way it had come. The truck is a total wreck, the driver's father said.

Minden spending up \$84,580

By Dwight Thomas

Anson, Hindon and Minden Council opened its strongbox last week and announced it would increase its spending by some \$84,580 over 1976.

As a result the total municipal levy will increase a whopping 26.2 percent over last year.

Total municipal expenditure for 1977 has been set at \$698,600 as opposed to the \$614,020 actually spent in 1976.

This represents a spending increase of about 13.8 percent, considerably higher than the 8 percent provincial

guidelines set down by Queen's Park.

Increase in Health, Social and Family services and Recreational and Cultural Services account for much of the increased municipal spending proposed for this year.

As well, increased spending in Planning and Development programs and a \$6,800 outlay for the Young Canada Works program plus a 16 percent increase in Local Initiative Projects have all he-

lped to boost this year's budget.

But as municipal spending increases, taxes will also rise to offset the costs. The 1977 municipal levy is set at \$329,180, some 26 percent or \$68,441 higher than the 1976 levy of \$260,739. However, Ontario grants to Anson, Hindon and Minden will rise from \$174,738 to \$209,340 - an increase of some 19.8 percent or \$34,602.

Scouts off to Jamboree

Twenty-one eager Boy Scouts from Minden and Haliburton left this week to take part in the largest youth gathering ever held in Canada

- the Boy Scouts of Canada 1977 Jamboree. The Jamboree is being held at Cabot Park, Prince Edward Island on some 500

New garbage system could end local dump

A containerized garbage pick-up system, which would eliminate the local municipal dump, is being considered by Anson, Hindon and Minden Council.

Donald Coates of Muskoka Containerized Services made a special presentation to Council last week in which he outlined the latest ingarbage collection methods.

A service such as this one would place various-sized, transportable containers at

convenient locations throughout the municipality, effectively replacing existing landfill sites and dumps, he told council.

During Coates presentation he explained that his company's methods provide for cleaner and more compact landfill sites.

Coates also said he hoped neighboring townships would collectively accept this

See GARBAGE P. 5

acres of rolling provincial campgrounds situated 20 miles from Summerside.

Boy Scouts from all across the world will gather at Cabot Park for the Jamboree which runs from July 1 - 10th. Some 15,000 persons

are expected to be on hand. Scouters will be able to participate in many outdoor activities including swimming, hiking and various crafts as well as participate in an exciting Jamboree ceremony, 'Canadians All'.

The Haliburton Highlands Chamber of Commerce

This week's 'Horror Story' comes from the Canada Manpower Office in Peterborough. An employer located in Haliburton County who apparently was not aware of our Outreach Office in Haliburton, sent his job order into the Peterborough Manpower Office seeking employees. Not only did the Peterborough office not refer this employer and his request to our Haliburton Outreach Office, but they sent applicants from the Peterborough area to apply for the positions in question. It should be pointed out, however, that it was through the co-operation and assistance of the Peterborough Manpower Office that the Chamber was able to sponsor and open the Outreach Office in Haliburton. For all who have made use of it, its existence has been a very definite advantage, and they have been pleased with the personal service they have received there. In the Haliburton office you are not just a number being processed by a civil servant, but you are somebody who needs help and this staff cares. It is unfortunate that some members of the Peterborough staff either are not aware of or do not care to recognize that this office is here to service the people of Haliburton County.

Haliburton High School held their graduation ceremonies on Sunday and once again it causes us to ponder the future of our graduating students. It is of particular concern that we see so many of our graduates having to leave the county in order to seek employment, but it did seem to us that this year there was more than in the past that were able to find employment here at home. There is no doubt that most could earn more by seeking employment in larger centres but this is the price we have learned we have to pay in order to live and work in this beautiful country. Let's face it, if you could earn as much money in Haliburton as you could in say Oshawa then everyone would want to live here, and it would be so crowded it would lose its' appeal.

Johnny Burgess, who operates the Coboconk Flour and Feed Mill, has moved from his residence on the Kashagawigamog Road to his new home on Highway 530, near West Guilford just north of the Irish Line Road. Johnny still has pick-up service at his home and has also arranged for pick-up service at Hilltop Market. Paul and Grace Gelder, former owners of Dell Haven Hotel have purchased Johnny's previous home at Kashagawigamog and 121 Hwy.

Hyland Lumber Ltd. is undergoing many changes in the process of becoming a Wiseway dealer and entering into the retail lumber business. Proprietors Mike and Richard Biagi and Jim Csanig are optimistic about the new venture and have already transformed their tiny office area into a modern up to date showroom. Lance Easton opened his new Haliburton Red and White store this past week and is justifiably proud of their new facilities. We understand we and an antique store open shortly next door to the old Echo Headquarters.

Mike and Paulette Blake who most will remember originally opened Mike's Milk have returned to town and Paulette is specializing in antiques, collectibles and crafts and can always guarantee an interesting display to browse through. In Minden, Wayne Henderson has just moved into the area, and opened The Storeroom just over the bridge beyond The Progress office. Wayne's unique shop carries a line of natural foods, crafts and furniture along with a book exchange. Wayne has cottaged in this area for many, many years and was formerly with the Ministry of Health and has left all that for new life in the good country. Bud Kirchner is also a civil rebel having left the Ministry of the Environment to buy a farm at the end of the Irish Line Road formerly owned by Ron Nunn. The Kirchner's are not only getting the farm running once again but are manufacturing colonial handcrafted furniture using the old traditional methods of manufacture. Those of you who visited the Home and Cottage Show last week will, I am sure, have seen some samples of his excellent work. Not far from there Bob Davis is setting up the Maple Lake Blacksmith Shop where he will be involved in traditional hand forging. Bob has finally laid down his paddle after exploring the far north by canoe over the last several years and plans to have his shop open by August. Silver Valley Store which is about half way up the Kennebec Lake Road from West Guilford towards Kennebec Lake now has riding horses available for hire. They can now accommodate groups of up to six people with two guides on some beautiful trails.

Last winter Gerry and Karen O'Conner joined the Chamber as the new proprietors of Stan's Texaco. We were very sorry to hear that Gerry passed away suddenly on Friday. He will certainly be missed by his many, many friends and we wish to extend our sincere sympathy to Karen.

Record Lake Trout caught in Drag Lake

For veteran angler and Drag Lake cottager Robert Tirillis catching this whopper, 38-1/2 pound Lake Trout last Sunday morning was the top fishing thrill of his life. Measuring 42-1/4 inches long, 5-1/2 inches thick and 32 inches in circumference, it is believed to be a record not only for Drag Lake where it was caught, but for the whole of Haliburton County. Mr. Tirillis, age 54, and his wife Vanda went fishing about 10.30 am. Less than 20 minutes later he had his first and only strike of the day. A heavy equipment mechanic with DOFASCO, he said the fish hit hard and that he told his wife to, shut off the motor, I've got something bigger than I've ever had on before'. It took him about six minutes to bring his prize up to the boat but although it shied away from the net the first time 'I grabbed him by the tail and shoved him right into the net as soon as we got him close again'. Found in the lunker trout were two other Lake Trout - one of about two pounds and another of 1-1/2. It is believed a third trout had been regurgitated moments before it was netted, according to a district taxidermist. Mr. Tirillis says he plans to enter his catch in Molsen's Big Fish Contest. The Lake Trout winner of last year's contest was a smaller fish than his, he said.

Safety award goes to school bus driver

BRUCE MALOTT

School bus driver Bruce Malott's 31 years of safe driving were rewarded last Friday night at a special Safety Award Night in Lindsay. A driver for Travelways School Transit Ltd. for the past three years, Mr. Malott spent the previous 28 years in Windsor, Ontario where he drove for Windsor Bus Co. A resident of Dysart, Mr. Malott received a special pin and certificate and is now number two in the province in total number of safe driving years.

Council limits firehall spending

Some planned interior work at Minden's new Fire Hall may have to wait until next year, Anson, Hindon and Minden Council decided last week at their regular meeting.

A summary of capital expenditures revealed that almost all the budgeted \$50,

000 for the Minden Fire Hall has already been spent. To date some \$49,642 has been used to build and equip the Fire Hall and to make it functional.

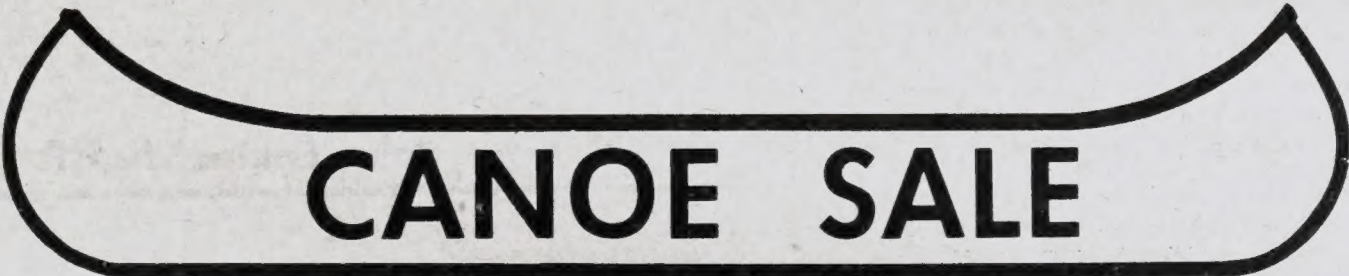

But council, realizing that some \$5,000 more is needed to fully finish the interior of the building, put a

restrictive clamp on any further spending.

Reeve Reg Booth pointed out that no more funds are available at the present time and that Minden Firemen may have to wait until next year to completely finish the building.

Congratulations

The departure early Wednesday of some 21 Boy Scouts for the 10-day Canada-wide Canadian Scouting Jamboree 1977 at Cabot Park, Prince Edward Island was not without an almost audible sigh of relief from parents, leaders and, yes, the youngsters themselves.

Just getting them there has taken a monumental effort in fund-raising and planning plus a large measure of self-sacrifice.

Congratulations.

MPP Ziemba

The jailing of MPP Ed Ziemba last week for refusing to reveal a confidential source of information came as a profound shock to thinking people everywhere.

For members of the Ontario Legislature, whatever the party, it posed a potential challenge to their effective function that cannot be ignored.

A year ago last March Mr. Ziemba revealed to the Legislature the names of doctors he said had received gifts from ABKO Medical Laboratories in return for business referred by them.

Charges of fraud against the firm followed.

It is unlikely MPP Ziemba's informant would have talked to him so willingly and freely if he had thought for one minute that his name would be revealed.

MPP's and MP's alike share a unique position of trust

Requests for advice and help, disclosure of information thought pertinent to the welfare of the riding, the community and beyond are all a part of their daily life in public office and are invariably received in confidence.

To do otherwise would destroy the member's credibility, reputation and, of course, his effectiveness.

And in endeavouring to do his job, the job for which his constituents elected him, Mr. Ziemba rightly felt that to identify his informant would betray the confidential trust of one of those same constituents. That this whole question should be ruled on by a higher court may well be necessary.

That enabling legislation is required to protect members from such actions as MPP Ziemba has suffered this past week seems mandatory.

The alternative could be a hobbled Legislature.

Last Wednesday, Prime Minister Trudeau stated in the House of Commons that the Quebec government has a right to restrict the rights of English-speaking Quebecers to have their children educated in the English language. Trudeau was responding to criticism of his failure to take a stand against the principle of the Quebec government's Bill One, a bill that proposes to make French the only official language in that province, and to severely restrict the use of English in education, government and business.

Typically, Trudeau followed up his statement of support for Bill One by saying that the rest of the provinces should expand their services in French, and that they should build schools wherever there are French Canadians who want to be educated in French.

That is not the level of leadership that the Canadian people have a right to expect from their federal government. It is political brinkmanship, pure and simple, and it plays right into the hands of the Quebec separatists. They are being told that they can push Canadians as hard as they wish, and the Prime Minister will support them all the way.

There are two points that must be made in this case. One is that the Quebec bill runs counter to the provisions of the Canadian Constitution concerning language rights. The second is that it also runs counter to the Official Languages Act, passed by Parliament in 1968.

Education is a provincial responsibility, and the prime minister of Canada can only involve himself directly in a provincial education system when it can be demonstrated that a system is denying Canadians their rights as guaranteed by the BNA Act, or by other acts of their federal Parliament. In this case, the federal statute concerning language rights cannot be legally superseded by a provincial statute.

Report from Parliament

by

William Scott M.P.

By failing to assert federal authority in these matters, the prime minister is fueling the fires of separatism by implying that the federal system in Canada is weak and ineffective, and that our federal government is powerless to deal with threats to the Canadian Confederation. Still another example of Prime Minister Trudeau's failure to accept responsibility for matters in the federal jurisdiction concerns the current dispute between the Quebec government and the Mohawk Indians who have been hired to paint the federal bridge linking Ottawa and Hull. This dispute involves the larger issue of traditional rights of our Native Peoples. By international agreement, Mohawk Indians, famed for their ability to work in extremely high places, can move freely throughout North America without having to acquire work permits from provinces or states. The Mohawks in question live on a reserve on Cornwall, Ontario, and the Quebec government insists that they will need provincial work permits to be allowed to paint the Quebec side of the bridge.

The bridge being painted is a federal bridge. Guarantee of Native Peoples' rights is a federal responsibility. Clearly this is a matter which must be settled by the federal government. We are being asked to accept the ridiculous situation whereby Mohawk Indians can move freely across the Canada/U.S. border, but they can be prevented from painting one half of a federal bridge because it happens to be over the Quebec side of a river. This International Bridge affair is only the latest in a succession of trial balloons floated by the Levesque government, to see if the federal government will act to protect the rights of its citizens. It is time for Prime Minister Trudeau to stop counting votes and exercise leadership. The future of Canadian Confederation is at stake.

Report from Queen's Park

John Eakins, M.P.P.

The 31st Ontario Parliament will officially open on Monday, the 27th June.

There is to be a Speech from the Throne, and many, if not all, of the bills outstanding on the Order Paper when the 30th Legislature was dissolved, will be reintroduced.

A Statement by the Treasurer is to be tabled, and the Budget Debate will continue.

Among the legislation to be considered is that on a Unified Family Court. Bill 189, tabled last December 13th, was intended to create a Court capable of dealing with all family matters in one forum in which is combined all the present jurisdiction of the Supreme Court, county courts and provincial courts in family matters. Judges necessary for the new Court could be judges who are appointed under Section 96 of the British North America Act as county court

judges of the Supreme Court in family matters is extended to all the jurisdiction that a Supreme Court judge has in those matters. The Bill would also authorize the judges to act as provincial court judges in family matters. The Unified Family Court is initially established only for the Regional Municipality of Hamilton-Whitworth. An Act to amend The Unified Family Court Act is being tabled by the Attorney-General. Proposed amendments

result from the postponement of the passing of The Family Law Reform Act, 1977, as proposed in Bill 6. Adjustments are needed to permit the Unified Family Court to adjudicate between July 1st and the date that Act comes into force when passed in matters originally designed to be replaced by the Family Law Reform Act

on July 1st but now postponed. This includes the temporary inclusion in the schedule of existing forms of action and the temporary requirement that judges of the Court be surrogate court judges having jurisdiction respecting custody of children.

You will recall that an all-party legislative committee decided to delay passage of the proposed marriage law reform bills to give interested groups more time to make submissions. Members were torn between a wish to delay the legislation to provide opportunity for public input, and concern that if the reforms were delayed they might

be stalled yet again by the intervention of a provincial election. Following mounting pressure, the committee agreed to advertise for public submissions and give clause by clause consideration to the bills in committee rather than in the House where the public cannot take part in the debate.

Predictions are that the First Session of the 31st Parliament will be very busy although comparatively short. I look forward to reporting to you on proceedings at Queen's Park. Please don't hesitate to contact me if I may be of any assistance.

See you next week.

Trade gifts to mark Minden Rotary 30th anniversary

Last Saturday evening saw the Rotary Club of Minden celebrate its 30th anniversary with a special dinner and dance at Hunters Horn. One of many highlights throughout the evening was the exchange of these two gifts...a plaque of Minden and the Bacchus Story, a book on Bacc-

hus Marsh, near Melbourne, Australia and the home town of the Minden Rotary Club's guest exchange student, Linda Danvers. Above, Reeve Reg Booth and Minden Rotary Club President Dick Schell (right) join Linda in examining the exchange gifts.

Police seek "phony" driver

Police are still seeking a 'phony' driver who abandoned his damaged car on Highway 35 a week ago Tuesday morning. In the 5:00 a.m. accident a

leased 1977 station wagon sustained some \$3,000 damage. This was just one of four separate accidents last week which resulted in some \$8,000 property damage.

One driver was charged by police. Provincial Constable Gary Chapman was patrolling Highway 35, in the vicinity of the Wagon Wheel Motel, Tuesday

morning, when he noticed a car in the west ditch.

The investigation revealed that the car had been southbound when it struck a culvert in a private driveway and rolled into the ditch.

The car, owned by Holiday Leasing of Toronto, had been leased to a man who police say gave false identification to both the leasing company and subsequently to police.

Metropolitan Toronto police are assisting Minden O.P.P. in identifying the phony driver. Meanwhile, late last Monday afternoon, a tractor-trailer jack-knifed on Highway 503, east of Kinmount, causing some \$2,000 damage. The truck, driven by Robert G. Johnson, 32, of Toronto, was westbound during a rain storm when the vehicle jack-knifed while rounding a curve. Constable Bob Pearson.

Twenty-one year old Chris Scott, of R R 2 Minden has been charged with careless driving and failing to wear a seatbelt following an early morning accident Saturday. Scott was northbound on Highway 35, just north of Twelve Mile Lake bridge, when he lost control of his 1969 car, struck guideposts on the south shoulder, veered across the road striking a hydro pole anchor in the north ditch, rolled over and struck a tree. Scott was taken to Minden Hospital with minor injuries while his car received \$1,000 damage.

Investigation by Provincial Constable Mike Maher.

A two vehicle accident about noon hour Saturday has resulted in some \$1,500 damage.

Eric J. Wallen, 20, of Toronto was southbound on the Fortescue Lake road when his 1970 car was in collision with a 1976 car driven by David Boyd 48, of Toronto also.

The left front sides of the cars smashed together as they crested a hill. Both vehicles received \$750 damage.

Investigation by Provincial Constable Jim Martin.

LETTERS

Box 524,
Midland, Ontario.

Dear Sirs:

I would like to give thanks to Helen Johnson and Jim Elder, for their care in transporting me from Min-

den Hospital to Midland Hospital.

For the time being I will be at my daughter's home, Mrs. K. Thomson at the above address.

Sincerely,
Esther Shaver.

Hall's Lake News

Doreen Stinson

Changeable weather gives one a variety of climates to get outside and inside work done. May certainly gave us an introduction to hot weather and then June became more like April usually is with lots of showers and cool nights.

Many families, now that schools are out, are arriving daily to spend the Summer at their lakeside homes. Some cottages have changed hands since last year so we are meeting new people this Summer.

Good to welcome back the Chessums and the Housers who have cottages in on the Shangrila Road.

Stanhope Township Recreation Committee are holding a 50-50 draw and tickets will be going on sale immediately, all a part of a programme to raise funds assisting them to develop the new Stanhope Recreation Park on the North Shore Road (behind the new Firehall). The first stage (the baseball diamond) is far from finished but now in use. Seats are now needed for spectators coming to watch the ladies' baseball games. Other stages of development call for an outdoor skating rink, childrens' playground, horseshoe courts, tennis courts and bowling greens. Council is supporting the Park and will seek grants to make the total project possible...but the Committee is hopeful that public support will be forthcoming for their fund-raising efforts to enable them to make application for a Wintario Grant.

The Music Night '77 at the School in Minden last Monday was a fine example of what young folks can do when they are trained and given the right instruments. We thought there was much talent both in the solo numbers and the group renditions and the young lads who sang as they played their guitars should be good competition for Stompin' Tom or any of the other current popular performers.

Miss Eleanor Gilchrist is back at her cute cottage for a holiday.

Mr. and Mrs. Tommie Craig of Hamilton are spending two weeks at Glengarran Resort. Tommie was a Scottish Piper in the 48th Highlander Band in Hamilton for years.

Visiting at the Montgomery cottage are Mrs. Sadie Montgomery, and Mr. and Mrs. Bert Nicol, who along with Mr. and Mrs. Grant Montgomery, Bob and Cathy are all celebrating Tom's 19th birthday on Sunday. Tom enters Waterloo University in the Fall but will be working in the store again this Summer. Cathy will be helping out at Glenroy Lodge this Summer and Lori Alford will be working at Happy Holiday Variety.

Nice to hear from the Pethick Jr. family that Mr. and Mrs. Pethick Sr. will be returning from their two-year stint in Indonesia come September. They are enjoying it there but will no doubt be glad to get back to Canada.

The new bell tower at St. Stephen's Church is to be dedicated on Sunday the 24th of July. The Rev. Andrew Hutchison from Meadowvale (mississauga) will be on hand to assist at the ceremony at 3 pm. The two flower standards will also be dedicated at that time.

This coming Thursday at midnight the bell on the church at St. Stephen's Church at Boshkung will ring, and although we may not hear them---all church bells through the length and breadth of Canada are expected to ring, to usher in CANADA DAY, Friday, July 1st. Flags will be in evidence and celebrations will be taking place throughout the land. A lot of people will be celebrating with picnics and family get-togethers.

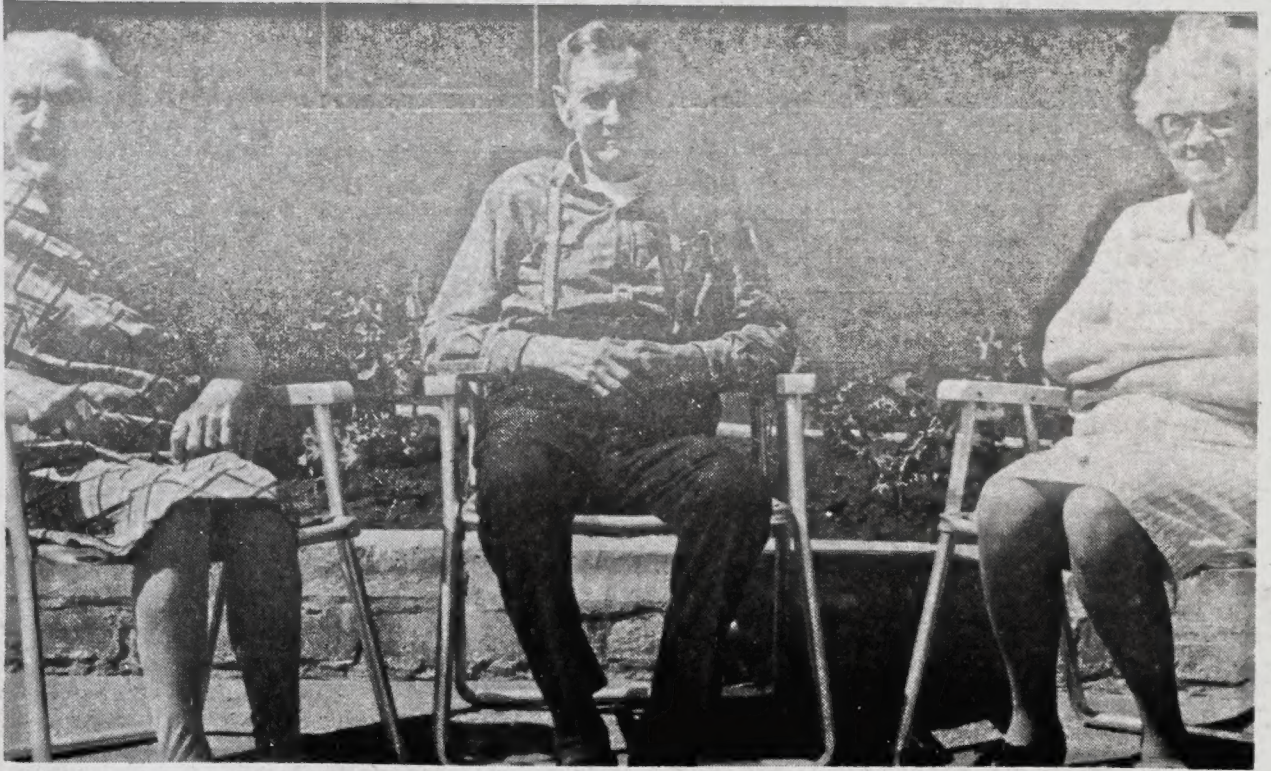

Mr. and Mrs. Laurie Arthur are celebrating their 41st Wedding Anniversary at their cottage this week. Their twin daughter, Mrs. Peter Stumpel, her husband and two sons leave this week for a trip to Europe, visiting grandparents in East and West Germany and several other countries for four weeks. They will then return to their home in Frobisher Bay.

A sparse congregation attended St. Stephen's on Sunday since so many were away this week. Layreader Earl Cooper took the service and his wife played the organ.

Several people have been asking what the hours are for obtaining books at the Stanhope Library, and Mr. Alex Stevenson has been kind enough to obtain these for me so I pass them along to you. As of July 4th Monday to Fri-

The Senior League

Birthday Greetings

Birthday greetings go out to the above trio at Hyland Crest Senior Citizens Home, left, Isabella Shay, 90, centre, Robert Kernohan, 82 and Agnes Lansfield, 86.

Also celebrating birthdays this month are: Eleanor Law, 84, Alfred Cox, 79, Bruce and Frank Sims, 76 and 74 respectively and Ada Lewis, 75.

day 7 to 9 pm., Thursdays 10 to 12 pm., and every Saturday 2 to 4 pm. The new library is a delightful building and there are many good books to be read. They expect to have some good films to show later in the little room below the main library room. Miss Isabella Gibbs is the lady in charge and Miss Susan Redner is going to be helping, part time, during the summer, in the Library and Mrs. Ray Welch is in charge of films.

Welcome back to the Dalziel family who for many years have come to spend a month's vacation at Cherokee Resort.

The Annual Meeting of the Hawk and Hall's Lake Property Owners' Association is coming up on Sunday, July 3rd, promptly at 10.00 am at Camp Kawabi and all members are urged to be on hand. Mr. George N. Attridge, President has had a busy year attending to matters helpful and necessary to property owners, as to their rights and the by-laws and restrictions, and plans for the future.

Lovely sunny days and warm nights are now with us so it looks as though we are off to a good Summer! We hope!

Mrs. Audrey Wilkinson has departed to attend a wedding anniversary of her sister in British Columbia, driving to North Bay to catch a train and will probably be returning via Air Canada.

Nice to help Puth and Archie Neil celebrate a wedding anniversary on Sunday evening by having dinner at the Pinestone Inn. Good food in pleasant surroundings with excellent service and to see the improvements they are making made for an interesting and enjoyable interlude.

People were in swimming in this Lake on Sunday and while they said it was cold to venture in confessed it was refreshing and pleasant once they got under and swimming.

Congratulations to the men on the Highways! The grass is nicely cut and one sees very little litter thus far. Let us hope it will be a Summer of thoughtful people taking their litter with them and depositing it in their own garbage pails or taking it to the dumps provided.

Hope you all have time to get your flags up for July 1st!

COMMENCEMENT

By Robert D. Penfold

Parents, teachers and graduates formed a mutual congratulation society on Sunday evening, June 26, at Haliburton Highlands Secondary School. The occasion was the annual Commencement and graduation ceremonies after which, in spite of the heat, universal smiles and a good deal of hand-shaking and back-slapping were the order of the day.

Pipers Earl and Alan Cooper led the colourful procession of graduates, staff and platform party into the school auditorium. After Rev. Douglas Miller presented the invocation, the Principal of H.H.S.S., Mr. T. Brian Mosgrove, introduced the platform guests: Miss Anna Church and Mrs. Sherilyn Hoare, of the teaching staff who introduced the Grade 12 graduates; Mr. J. Douglas Hodgson, Director of the Board of Education, and Mr. Richard Poole, Chairman of the Board, who presented diplomas to the Grade 12 graduates; Mr. David Mowat of the teaching staff, who introduced the Grade 13 Graham, Grade 12 Valedictorian, and Mr. Dick Stouffer, Grade 13 Valedictorian. Mr. Mosgrove welcomed the community to the 25th annual Commencement. He immediately explained that the primary purpose of the ceremony was to honour 107 recipients of the Ontario Secondary School Graduation Diploma (Grade 12) and 17 recipients of the Ontario Secondary School Honours Graduation Diploma (Grade 13). The Principal also informed the gathering that 17 of the 107 Grade 12

graduates earned honours (75% or more in 7 credits), that 7 of the 17 Grade 13 graduates earned honours, and that 2 of the latter are Ontario Scholars (over 80%). He stated that awards for academic excellence would be presented at the annual Awards Night Banquet, scheduled this year for Saturday evening, October 22. Mr. Mosgrove expressed his pride in the achievement of the graduates, and indicated that teachers, parents and members of the Haliburton County community at large are justified in sharing the pride of these 124 citizens. Speaking on behalf of the Grade 12 graduates, Brenda Graham said:

'It is appropriate at this time to thank the many people who have made this wonderful day possible for us: the many teachers who have guided us. Their purpose was to impart information, but more than that, they have instilled within us a sense of loyalty and self-discipline for which we shall be forever grateful... Whether or not our next step is to further our formal education or to start a chosen career, all of us must accept

the challenge of increased responsibility which confronts us. We must face this new world with the same eagerness and determination that has brought us to Grade 12'. On behalf of the Grade 13

About the Town

with Jeanne Sears

For summer visitors not familiar with Celsius temperatures, readings above 18 degrees (68) are quite warm, but when it gets up to 35 degrees (90) and humid with this you might complain a bit.

Congratulations to the newlyweds Mr. and Mrs. Raymond Johnson (nee Deborah Rose Casey) and Mr. and Mrs. Nelson Johnson (nee Audrey Christine Casey) whose weddings were Saturday evening.

Incidentally, July 16 is the wedding day of Barbara Payne and Wayne Fawcett...not June 16th. Sorry.

King David and King Solomon, led merry, merry lives, With many, many lady friends and many, many wives. But when old age crept over them, with many, many qualms, King Solomon wrote Proverbs and King David wrote the Psalms.

J.B. Naylor.

For the summer there will be story time at the Minden Library, Thursday mornings, at 10 for preschoolers and up. Bring your youngster in, we're sure they love a story.

The Martha Group of U.C.W. enjoyed a dinner party at the Wagon Wheel on Wednesday evening. Some 41 ladies were present and later had a game of cards.

The community sends belated good wishes to these people at Hyland Crest celebrating birthdays in June - Ada Lewis Marjorie Kanally, Bruce Sims, Frank Sims, Robert Kernohan and Alfred Cox.

The Fruit and Vegetable Market we wondered about is being built beside Wrightman and will have ample parking.

If you hear some loud noise Wednesday early, it will be the Scouting Gang leaving for the Jamboree at P.E.I. The bus will be loaded with leaders, scouts and gear as they plan to be away until about July 12th.

Hint of the Week - For your barbeque, put a piece of charcoal in each section of an empty egg carton, close up and put on lighter fluid and this is a good starter.

Mrs. Russell Lewis visited over the weekend with her cousins Miss Isobel Davies of Lindsay, and Mr. and Mrs. George Maddocks of Valentia.

Plays are coming again this summer to Haliburton High on Monday nights at 8.30, with 'Theatre 5' presenting 'The Seasons of Dennis T. Patrick Sears' on July 4th. Live theatre is a treat for everyone.

Sincere sympathy goes to the family and friends of the late Gerald O'Connor whose funeral was since last week.

Do you think this is true? After all, it is not what is around us, but what is in us; not what we have but what we are, that makes us really happy.

Gelke.

All their friends send good wishes to Edwin Hewitt who is in the hospital side of Hyland Crest, and to Mrs. B.J. Walker suffering a broken wrist and to Glenn Stamp with his broken ankle.

Some welcome showers on Saturday, but nice weather came after. Take care driving, swimming or boating.

Cheerio until next time.

Electrical use up during May

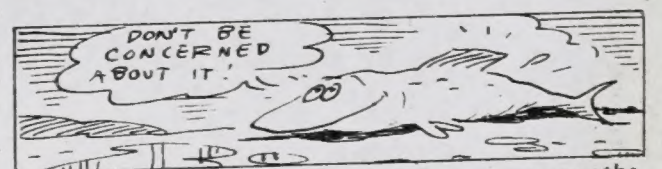

Ontario's electrical energy demand rose to 7,202,644,000 kilowatt-hours during May, 3.4 per cent greater than the corresponding total for May, 1976.

Primary peak demand reached 12,723,000 kilowatts at 12:10 p.m. Tuesday, May 24.

Almost 39 per cent of energy generated and purchased during the month

came from water-powered stations. Nuclear power provided 21.4 per cent, coal, 20.9 per cent, natural gas, 3.8 per cent, and purchased power, the remainder.

Spring runoff this year fell short of expectations, especially in Northwestern Ontario.

The African mudfish can live for many months in its burrow beneath a dried-up stream bed.

We at

Austins Service Station, Minden, having

sold the business, wish to thank our

many customers and friends for their

patronage through the years. It is our

hope that you will continue with the

new owner MR. DOUGLAS LENNIE,

who will give you the same service as

before.

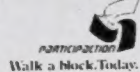

Many thanks

Jack Austin

Bill Austin

and Staff.

Trent-severn Waterway News

Rainfalls that began Thursday night, June 16 and recurred Saturday, June 18 and Monday, June 20 have given some noticeable respite from the parched conditions discussed in this column last week. Several Kawartha Lakes levels rose one or two centimeters enabling us to reduce our drawing of Reservoir water to minimum requirements early this week.

Reservoir storage on Monday, June 20 stood at about 70% of maximum compared to an average of about 8% on the long term. Evaporation has been much less as well during this wetter weather. Precipitation at Minden from June 16 to 21 totalled 1.37 inches which appears to have helped the levels of many reservoir lakes.

Boaters on the Waterway are reminded that the navigation range is still being maintained, even though there has been a general lack of precipitation along the system.

Concrete restoration work is progressing on Little and Big Bob Dams.

The guides will be starting their duties at both the Peterborough and Kirkfield Locks. They are there to assist visitors during the regular working hours of the locks.

Bridge Ceremony

A brief ceremony on the shore of the Gull River in the heart of Minden marked a most special occasion for Minden Council last Friday afternoon as Council took over the newly-refurbished Sunnybrooke Bridge from the contractor and consulting engineer. It was about a year ago that Council first learned of the bridge's deteriorating condition and by early last Fall repair work was underway.

On hand for the ceremony were (left to right): Reeve Reg Booth, Councilor Len Lonsbury, Earl Kent, Councilors Al Coneybeare and Lyle McKnight, Gordon Crosby of Totten, Sims and Hubicki, Roy Grills of Larsen-Grills Construction Ltd., and Clerk-Administrator Richard Parisotto.

Anglers and Hunters brief protests proposed gun legislation

A presentation by the 17,000 member Ontario Federation of Anglers and Hunters Inc. to the Federal Committee on Justice and Legal Affairs regarding Bill C-51. An act to amend the Criminal Code, the Customs Tariff, the Parole Act, the Penitentiary Act and the Prisons and Reformatories Act.

Bill C-51, in its present form, is unacceptable to the Ontario Federation of Anglers and Hunters. There are many features of the Bill to which we take strong objection, believing that they will be un-protective, in some cases unfair, and generally do not meet the Government's aim stated objectives for this legislation.

1. The firearms Acquisition Certificate should be issued without charge and be valid until revoked. The vast majority of gun users already pay an average annual fee of at least \$15.00 in the form of Provincial Hunting Licenses and Migratory Bird Licenses. Note also that the F.A.C. system is supposed to protect society generally from the criminal and the dangerous - why should legitimate gun users be called upon to pay a large share of the costs of the system?

We also believe the 5 year term of the license to be unnecessary so that a F.A.C. holder who in the interval has rendered himself ineligible by reason of a criminal or mental record will be identified and refused renewal. But in the vast majority of cases such a person would already be under an Order of Prohibition through the operation of the new section 98, S.S.'s (1) (2) and (4).

2. Section 106.1 (3) (e) would permit the registration of a hand-gun if it is deemed to be a curio as defined by Regulation. We request the addition of the word 'relic'.

3. The government should present the initial regulations it intends to issue under authority of section 106.8 while the Bill is in Committee.

4. Section 103 (1) (a) provides that the record to be kept by dealers, gunsmiths, etc. shall be 'in a form prescribed by the Commissioner'. This is an open-ended proposition and for that reason objectionable. The form should be establish-

ed now and included as a numbered form in the Criminal Code. It must be reasonable and easily kept.

5. Not only will dealers, gunsmiths, etc. have to keep a record and be subject to a permit system but they will have to pay for the permit in some amount to be fixed by Regulation. The need for a record is accepted as is the permit system but the imposition of a fee is totally unnecessary. It would tend to hamper small gun dealers and raise costs. Even a small fee is most objectionable since the fee can always be raised later. There must be no permit fee for dealers, gunsmiths, etc.

6. Section 103 (1) (d) requires the dealer etc. to mail a copy of his sales record and inventory to the commissioner or the permit issuer on request. It was understood that the dealers record was to be kept only for local police reference and to ensure proper application of the Firearms Acquisition Certificate System. To extend this arrangement in the manner planned has no useful purpose and simply places a further burden on businessmen handling firearms. We oppose anything which allows for a central registry.

7. The definition of a 'Restricted weapon' would include one that is semi-automatic, discharges centre-fire ammunition and has a barrel under 18 1/2 inches in length. It is understood that the purpose here is to provide some control over the M-1 carbine, an arm now favoured by criminals. But unfortunately it also covers other makes and models in significant numbers now used by good citizens in hunting. The change proposed will prevent the further use of these firearms and cause a substantial loss to the present owners. The provision is therefore strongly opposed.

8. We note with approval the provision for an amnesty period during which firearms may be brought in to the police or firearms registrar and surrendered without the owner rendering himself subject to prosecution. However, we recommend that this be extended to allow firearms, that are in the restricted classifications and have not been registered, to be submitted for registration and return to their owner. This is the practice that has been formerly followed in former amnesty periods.

9. The 'Need' qualification for registration of handguns, has not been documented or explained. The long-standing principle is that the strictest control is placed on hand-gun carriage while possession in the home or place of business calls for registration only. Lacking well documented reasons for abrogating this principle, imposition of the 'Need' qualification for registration is opposed.

10. Sub-paragraph (e) in the definition of 'Prohibited weapon', Section 92, gives the Governor in Council authority to move a restricted weapon to the prohibited classification unless it is 'an antique firearm or a firearm of a kind commonly used in Canada for hunting or sporting purposes'. The effect of this is that all hand-guns except those used for target practice could be prohibited by Order in Council despite the classification of 'restricted' given by Parliament. We consider this would be an unfair and excessive delegation of authority and strongly opposed it.

11. Sub-paragraph (c) in the definition of 'Restricted Weapon', section 92, provides that full automatic registered as 'restricted weapons' and in the possession of bona fide collectors on the date this provision becomes law will retain that classification and under authority of Section 106.1 (4) may later be disposed of to other bona fide collectors who already possess such weapons. The effect of this limitation on disposal will ultimately lead to a 'sole survivor' and we feel that this is simply a round-about way of prohibiting these weapons. Why not permit disposal to 'any other bona fide collector' remembering that all collectors will be subject to the control of the F.A.C. system?

The bill also does not define 'bona fide collectors' and should do so.

12. We note the plan to encourage citizens to turn unwanted or unused guns in to the police for disposal. As well it notes that a certain number of guns will come into police possession through confiscation and forfeiture. Many of such guns will be valuable and we believe it is wasteful to destroy them. Some way should be found to realize their value and suggest that the Chief Provincial firearms officers and their Advisory Councils might be used to handle disposal administration.

These are a number of points we wish to make. There are others, but unfortunately the haste evident at your Committee level precludes a more in depth study and report and eliminates the possibility of referring to areas of the Bill with which we might agree.

This report is presented as constructive criticism and we are sure you will receive it as such. Bearing this in mind the O.F.A.H. must insist that all necessary amendments be made before Third reading. The amendments must be made on the Bill or it must be scrapped. As stated earlier we feel it is unacceptable as is.

The Ontario Federation of Anglers and Hunters wishes to thank you for the consideration given our presentation. We also wish to repeal our offer of and request for a meeting with the Committee or the Minister of Justice. It is important that any legislation be aimed only at offenders not innocent citizens. The democratic principles of 'Innocence before being proved guilty' must be upheld to all times.

Trent appointment

PETERBOROUGH—The appointment of Peter Adams to the dual position of dean of graduate studies and university research officer has been announced by Trent University president Tom Nind.

Professor Adams, retiring chairman of the geography department at Trent, succeeds Stewart Brown, who has been dean for the past three academic years.

Professor Nind noted that the position of university research officer has been created only recently and that Professor Adams is the first to hold it. As dean, he will coordinate the university's various graduate programs; as research officer, he will work with university faculty in seeking funds for research and with Trent's research committee in the coordination of research efforts.

Professor Adams, a geographer whose special interests are in aspects of snow and ice, joined Trent's geography department as its first chairman in 1968.

OVER SEVENTY'S DINNER.....

Once again this year the Over Seventy's Dinner at Hyland Crest Senior Citizens Home was a huge success, drawing over 280 residents and guests. Special guests for this very special evening were Mr. and Mrs. Bob Vick, Warden of Haliburton County, Rev. and Mrs. Doug Miller, Mr. and Mrs. Wilf Lahay, Mr. and Mrs. Sidney Brown and Mrs. Elsie Bursey. Top left, activitv director Lil Rawlins entertains the audience with some sold time favorites; middle top, Charles Plewman of Extendicare in Haliburton is joined in song by Lillie and Peggy Neville; top right, Peggy Neville sings a medley of old-time tunes; centre right, Charles plays a solo to the delight of the audience on his 35 year-old harmonica accompanied by Fred Ballard on the organ and bottom, some of the over 280 people who jammed the auditorium for dinner and festivities.

CLIFF BURKE

Burke, Deyell, Phillips win 'Chairmen of the Year' awards for 1000 Lakes Bowlers

'WINNERS THREE'

Many surprises were had at the Incentive Award ceremonies following the President's Dinner on Saturday evening. Not the least of which was 1000 Lakes, a second year Association, picking up three awards. Bill Phillips led the way with his second 'Awards Chairman of the Year', in as many years. Cliff Burke won the 'Records Chairman of the Year' and Joan Deyell captured the 'Publicity Chairman of the Year'.

Following right along in 1000 Lakes footsteps was the Windsor Bowlers Association winning three awards as well. The W.B.A. picked up the 'Association of the Year' led by their president Don Guindon. They also won 'Treasurer of the Year', thanks to the fine work of Todie Morgan and Bill Percy picked up the 'Lottery Chairman of the Year'.

The 'Executive of the Year' award went to Bill Bird of Nickel District Bowlers Association. Since Bill took over as President of the Association and De-centralized into eleven Associations, the membership has jumped from 3529 to 5258.

A new award was presented this year and speaking as a member of the OBC Board of Directors, Ev Wood, of the Hamilton Bowlers Association and Secretary of the OBC, is the most deserving person I know, to be the first winner of the 'Executive of the Decade' award. Ev has served on almost every position of her own Association, is the secretary of the OBC, was just elected to be secretary of the CBC this year. She has won the Secretary of the Year award on three occasions and has finished second four or five times over the past ten years.

The 'Most Improved Association of the Year' goes to Mid Elgin under the expert management of President Betty Vance. The 'De-Centralized Association of the Year' a new award this year has been won by Chemong Lanes under the guidance of President Doug Gilpin. The remainder of the awards for 1976-77 are: Secretary of the Year, Joyce Thornton, Conestoga Association, Tournament Director of the Year, Mike Kyte, York Simcoe, Certification Agent of the Year, Bob Grimes of Mid Elgin and Membership Chairman of the Year, Diana Hales also of Mid Elgin.

JOIN THE CROWD

At the 11th annual Ontario Bowlers Congress Convention held last week at Elgin House in the Muskokas last week the 1000 Lakes Bowlers

Association captured three of the ten individual 'Chairman of the Year' awards. Left to right, Cliff Burke of

Carnarvon Lanes won the 'Records' Chairman, Joan Deyell of Fenelon Lanes, the 'Publicity' Chairman and

Bill Phillips of Bancroft Lanes, the 'Awards' Chairman. This was the second straight year that Bill has

won this award, giving the 1000 Lakes Bowlers Association four awards in its brief two year history.

Gord Passmore receives Life Membership in O.B.C.

Gord Passmore, Brampton, Tournament Director for the Ontario Bowlers Congress, Saturday, was awarded a Life Membership in the OBC.

Gord has been involved in bowling for over 15 years, has been on the OBC Board of Directors for the past 8 years, has held every position on his local Association, Central Ontario, is a member of the Master Bowlers Association, has rolled a 450 single and a 1056 triple.

Gord has been an extremely valuable member of the board of Directors in the capacity of Tournament Director. At the recent World Championships in Niagara Falls, he constructed the scoreboards and scored every game of the Championships, an enormous responsibility for any individual. Gord now joins ten other Life Members of the Ontario Bowlers Congress, 1965

Mr. Bert Garside, Agincourt, (present Managing Director of the OBC) and Mrs. Flo Cutting, Toronto, 1968, Mr. C. C. Baldwin, Alberta, 1969, Mr. Fred Halle, Islington, and Mr. Charles (Red) McQuaker, Mississauga, 1972, Mr. James Beeforth, Toronto, 1973, Miss Evelyn Wood, Hamilton and Mr. George Barber, Georgetown, 1974, Mr. Ken Edge, Hamilton, 1976, Mr. Robert Falconer, Don Mills.

Operation Lifestyle

Lifestyle is having the capacity to react against the cigarette habit, stimulants and tranquilizers, pot and alcohol. It's avoiding drug abuse and rejecting illegal drugs.

Draw winners at O.B.C. Convention

Jack Walsh of Toronto Bowlers Association was the lucky winner this year at the O.B.C. convention of a beautiful 21" Color t.v. Due to the great response to the draw, two cash prizes were also awarded, Jane Groshaw of Mid Elgin Bowlers Association picked up \$60 while Tony Gambicourt won \$40. Thomas Adams Distilleries also put up a 1/2 gal. of spirits and this was won by Ron Dann of London Bowlers Association.

In the Queen's Plate Draw, 1st place went to Lakeview Bowlers Association who won \$205 2nd was Toronto Bowlers Association, \$123 and 3rd was Champagne and Valentin who won \$82.

Merchants shutout Comets for first win

The Minden Merchants tasted sweet victory on Wednesday evening in their home opener. After losing three straight games, in which, with a break here or there they could have won, they finally put it all together with solid pitching, excellent fielding and timely hits, to down Bobcaygeon Comets 3-0.

The players shone for the Merchants in this contest. First there was Barry Shaw. Barry took to the mound for the first time this year and threw a brilliant five hitter. He also struck out two batters. Then in the late innings when the Comets had a man on third base and the score 1-0 for Minden, Paul Sisson pulled in a fly ball and threw a perfect strike to the plate to gun down the runner. Minden added two more runs in the bottom of the eighth to cement the victory.

The Merchants got on the scoreboard in the first inning when light-hitting John Welch smashed a linedrive off the fence for a triple and scored on a sacrifice fly by Neil Burk, making his first start of the young season. In the eighth, Neil led off the inning with a double to right, scored on a double by Barry Shaw, who in turn scored on a third double by Wayne Johnson.

John Kimble took the loss for the Comets, but pitched

a fine game. He gave up the three runs on five hits, struck out nine and walked nobody.

The Merchants next game is Tuesday evening in Beaverton and then return on Wednesday to face the speedy Fenelon Falls Juniors, who defeated our boys 6-5 in Fenelon a week ago in the bottom of the ninth. I'm sure the Merchants will have little trouble getting up to meet these lads.

Wally Knapp elected to Board

The final order of business at any organization's convention is the election of officers to their Board of Directors. On Sunday at the O.B.C. convention there were four positions open on the Board. Three were present Directors whose terms had expired, Jack Hales, president of the OBC, Kevin Jones, treasurer, and Arn Witley, vice-president. All were re-elected. The fourth was also a vacancy by a Director, but he resigned due to business commitments.

Two men were nominated by the Board and delegates to run for this final position, Bill Bird, president of Nickel District Bowlers Association and Wally Knapp, president of Quinte South Bowlers Association. When the ballots had all been counted, Wally was elected to a

three-year term to the Board.

As a Board member myself, I'd like to take this opportunity of congratulating Wally on his election and look forward to working with him in the coming year.

Level I Theory Grads

On Sunday at Carnarvon Lanes, the above 20 people completed their Level I Theory, National Coaching Development Program. This was a sixteen hour course, sponsored by the Ministry of Culture and Recreation. It spread over four consecutive Sundays. The following now will go on to their respective

sport governing bodies and take the Technical end of the Level I Program in order to receive their Level I Coaching Certificate from the government. Back row left to right, Cliff Burke (bowling, baseball, track & field), Steve Barker (baseball) Ross Wilson, Fenelon Falls, (bowling), Ron Robinson Jr.

(bowling), Bob Webb, (bowling), Lanny McQuinn, Bracebridge (Course instructor), Ron Robinson Sr. (bowling), Willard Goodman, Bancroft, (bowling), Morris MacLachlan, Dorset, (bowling), Earl Goodman, Bancroft, (bowling), Garth Henderson, (bowling), Bill Phillips, Bancroft, (bowling), and Gary Warbur-

ton (hockey). Front row, left to right, Debbie Harding (bowling), Marlene Cook, (bowling), Audrey Fountain, (bowling), Ev Stata (bowling) Wendy Graves, Bancroft, (bowling), Brenda Cook, (bowling), and Shirley Wilson, Fenelon Falls, (bowling).

'Executive of the Year'

Above President of the Ontario Bowlers Congress, Jack Hales, presents Bill Bird right with the 'Executive of president of the Nickel District Bowlers Association, the Year' award.

'Executive of the Decade'

A new award was introduced this year at the convention and the first recipient is Ev Wood of the Hamilton Bowlers Association. The award is the 'Executive of the Decade' and in this writers' opinion there is no other per-

son more deserving than Evie. She has held almost every position on the Hamilton executive, is the Secretary of the O.B.C. and this year is the new Secretary of the Canadian Bowlers Congress.

'President of the Year'

Accepting the 'President of the Year' award from President Jack, is Don Guindon, of the Windsor Bowlers Association.

Bryan Watson hit at Haliburton Minor Hockey wind-up

On Wednesday evening at the Haliburton Arena, 125 Haliburton Minor Hockey players, coaches, managers and parents gathered to wind-up the 1976-77 hockey season. Special guest for the occasion was Bryan Watson of the NHL Washington Capitals. Bryan was quite a hit at the wind-up, distributing autographed pictures of himself and bumper-stickers to the players. After which he gave a short speech and held a question and answer period. This was the high-

light of the evening's festivities, as all joined in, picking Bryan's hockey knowledge. A special presentation was made by Bob Stinson, outgoing president of the Haliburton Hockey scene, to Grant Rae. A plaque was presented to him for his many many years of untiring service to Minor hockey in Haliburton. New president of Haliburton Minor Hockey, Lenny Salvatori, also made a couple of presentations. Both were to retiring executives

of the organization, Bob Stinson and secretary - treasurer, Barb Hodgson. The draw for the 10-speed bicycle was won by Glen Scheffee. The new Haliburton Minor Hockey executive for the 1977-78 season are: Lenny Salvatori, president, Paul Espie, 1st Vice President, Roy Scott, 2nd Vice President, and Lois Whittaker, secretary - treasurer.

JOIN THE CROWD

Despite a long and delicate operation plus days of gentle care, this Gray Owl failed to survive last week when it proved impossible to overcome the effects of a two-week period of starvation. The bird was found starving and suffering near Highway 35 with a badly shattered

right wing that prevented it from hunting. Following an hour-long and successful operation by veterinarian Dr. Len Burch during which he inserted a steel pin in the bird's wing bone, the owl was treated with antibiotics and received every possible care but, the ten days to

two weeks it had gone without food before being found proved too much and it died Saturday.

ONTARIO ELECTRICAL LEAGUE VICTORIA - HALIBURTON CHAPTER DO YOU KEEP WHITE ELEPHANTS?

Do you change or clean the air filter in your hot air furnace regularly? Dust clogged filters cut down air circulation requiring the furnace to run longer to bring the house to the desired temperature.
 clogged filters cut down air circulation requiring the furnace to run longer to bring the house to the desired temperature.
 Have you examined outdoor extension cords for fraying and breaking of insulation? Not only are frayed cords dangerous, but contact with snow or wet grass could result in power leaking away to the ground.
 Do you have an automatic washer or dryer? If so, try putting the clothes through a second spin dry in the washer. Doing this cuts the time in the dryer substantially.

Cutting back the thermostat on your heating system at night to 68 degrees from 70 degrees not only is agreeably noticable on your fuel bills; the cost of cold remedies will probably decrease

Do you play games with the thermostat by moving it up to 80 degrees one minute because you're cold and down to 70 degrees the next minute because you're hot? If you do, it is a relatively expensive game in terms of fuel dollars. To get the most for your money, set the thermostat at the day time temperature you are comfortable with and only cut it back when you retire for the night.

For light supper dish try these tasty Gouda Cutlets with your favourite vegetables and a glass of white wine.

Gouda cutlets

YOU will love these nutritious Gouda cutlets. Try them for a light supper dish.

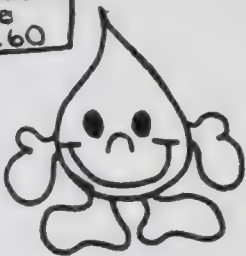

1 20-ounce imported Holland Gouda
¾ cup flour
1 cup dry bread crumbs
1 teaspoon seasoned salt
¼ teaspoon nutmeg
¼ teaspoon pepper
2 eggs, beaten
2 tablespoons butter
Cut cheese into slices about ½ inch thick. Dredge with flour. Mix bread crumbs with seasoned salt, nutmeg and pepper. Dip floured cheese slices into

beaten egg then coat with crumb mixture. Repeat this step if a heavier crust is desired. Melt butter in a heavy frying pan. Sauté breaded imported Holland Gouda slices for about 3 minutes on each side until golden brown. Serve immediately. Great with steamed vegetables and crisp green salad. Makes 4 to 5 servings.
For a tasty snack omit the seasonings in the crumb mixture. Simply bread slices of imported Holland Gouda then sauté in butter. Serve on thin toast with apricot or raspberry preserves.

August start for new Curling Club

August first is the target date for construction of the new Curling Club in Haliburton.

That was the news this week from the executive of the Haliburton Curling Club as they received conditional financial aid from Wintario and the Ministry of Culture and Recreation.

Estimated cost of the project is some \$306,000 of which \$100,000 must be raised locally.

Plans call for a completely new curling surface of four sheets, assembly and lounge area, locker room and shower facilities plus two single squash courts and an area set aside for a Senior Citizen's Drop-In Centre. The Haliburton Curling Club is committed to raising \$65,000 locally while the squash group must raise \$24,000 and various funding must be found for the \$10,000

cost of the Drop-in Centre. The present building is currently being demolished by Hyland Lumber Ltd. while the new steel building will be built by Rocheford Construction of North Bay. The new facility is expected to be in operation by the start of this year's curling season in November and with a strong cement floor will be available for many other functions all year long.

Trent prof named to speak studies post

PETERBOROUGH—Robert Page, a history professor at Trent University has been appointed coordinator of the environmental and resource studies program at Trent, President Tom Nind has announced. The program which he will head is an inter-disciplinary approach to some of Canada's environmental concerns. The program considers resource management and the environment from

the viewpoints of biology, sociology, chemistry, political science, geography, economics as well as history. As an historian Professor Page is well known for his work in the field of environment and resource studies. A past chairman of the Committee for an Independent Canada, he has served as chairman of the task force working on the Mackenzie Valley pipeline for the CIC. He has also

served as a witness on history for the native Brotherhood of the Northwest Territories for the Berger Commission and is a founding sponsor of the Public Petroleum Association of Canada. As well, he is host-producer of the public affairs television series 'The Editorial Page.' Professor Page recently received two grants worth more than \$30,000 to support two publications on energy decision-making in Canada.

End in sight for pull-tab beer cans

Pull-tab beer cans will soon be a collector's item in Ontario.

Beer cans with detachable tops will be rendered extinct in the Province of Ontario, over the next few weeks, as the brewing industry introduces the button-down beer can.

The new can tops, manufactured in Ontario are convenient, easy to open and safe.

Best of all there's no pull top which can be thrown away to become litter.

All 420 Brewers Retail Stores in Ontario are currently receiving shipments of the new cans. Customers will be notified of the change through an extensive in-store poster information program.

A spokesman for the company said that the new cans are very easy to open:

All you do is gently press a little button to release the pressure then press the large button and pour - it's as simple as 1-2-3, he said.

Prices will remain the same with the introduction of the new cans. A case of a dozen 12-oz. cans of beer will still cost the home consumer \$4.43 plus 60 cents deposit.

Canned beer sold last year

accounted for about 1% of the total packaged sale or approximately one and a half million cases.

All other packaged beer is sold in refillable bottles which are returned at the rate of approximately 98%. Last year, in Ontario, 1.8 billion bottles of beer were sold.

Justice Berger to speak at Couchiching Conference

Mr. Justice Tom Berger and the Hon. Alastair Gillespie, Minister of Energy, Mines and Resources will be speakers at the 46th Couchiching Conference to be held from August 2 to 7 at Geneva Park, Ontario. Speaking on a panel with Ronald Ritchie, former Senior Vice President of Imperial Oil, Mr. Berger and Mr. Gillespie will be looking at the topic, Rising Expectations and Limited Resources.

The conference will be opened on August 2 by Dr. Kenneth Spalding of the University of Colorado whose topic is A New System of Values.

Politics and the Media, The New North, The Metropolis and Inflation & Unemployment in a Mixed Economy will be the other subjects for discussion and workshops at Geneva Park. Guest speakers include Jean Luc Pepin, former Chairman of the Anti Inflation Board, Judith Maxwell of the C. D. Howe Research Institute, Dr. Angus Bruneau, Vice-President of Memorial University in Newfoundland, Hon. Roy McMurtry, Attorney-General of Ontario, Walter Pitman, President of Ryerson Polytechnical Institute Toronto and John Parker, Deputy Commissioner of the Northwest Territories. The Couchiching Confer-

ence has been sponsored by the Canadian Institute on Public Affairs since 1932. Registration is open to all members of the public. Inquiries should be made to 20 Eglinton Avenue East, Suite 203, Toronto, Ont.

FINANCIAL REPORT

NATURAL RESOURCES DOMINATE MARKET ACTIVITY

Stock market activity over the past few months has been highlighted by active trading in the shares of mining, oil and gas companies, both senior and junior. World wide consumption of copper, lead, zinc, silver, gold and most other metals, has been rising steadily, reflecting the higher level of economic activity generally. As the world economic recovery continues, rising demand — and prices — could fuel a period of sharply rising profits and increased mineral exploration in Canada.

The energy resources sector also remains very much in the stock market limelight, as world demand for uranium, coal, oil and gas climbs rapidly, pushing prices to successively new historic highs.

COPPER SUPPLY/DEMAND

Mr. Ian MacGregor, chief executive officer of U.S. mining giant, AMAX INC., recently made the statement "There is a danger of copper becoming a precious metal before the end of this century". A tremendous surge of growth in the electrical supply industry is the basis for his long term outlook of copper demand. As the electrical industry expands to meet modern day energy requirements, huge amounts of copper will be consumed, exceeding presently known supplies. Adding to this demand will be the rapid industrialization of many of the world's developing countries, many of which do not have internal sources of copper and various other minerals.

IN THE SHORTER TERM

On June 30th of this year the labour contracts of the U.S. domestic copper producers expire. At current copper prices, producers will be unable to meet labour demands if they are very high, and a strike would be the result. It appears that management and labour are heading for a strike of probable major proportions.

Political strife in South Africa is another serious threat to world copper production. In terms of copper exports, one third of world supplies comes from Zambia, Zaire, Mozambique, Rhodesia, South Africa and Southwest Africa. Bombings of railroads and uncontrolled violence threaten to hamper production and disrupt rail shipments of copper to sea ports for export.

GOLD ESTABLISHES NEW PLATEAU

Since its low of \$103 an ounce last year, the world bullion price has risen sharply to the \$145-\$150 an ounce area, where it has displayed good price support during the past two months. As long as the threat of inflation exists, and international monetary imbalances persist, we expect investors will wisely continue to appreciate the benefits of investing in gold in one form or another, as a safeguard for capital. Many observers in the international financial community are predicting a further rise in gold to the \$160-\$170 an ounce area before long.

SILVER occupies a unique position among world-traded minerals in that its industrial consumption is huge and growing steadily while, at the same time, it is valued as a hedge against inflation.

The current price of silver, near \$5.00 an ounce, is about triple its average price during the 1960's, and is forecast by some to be heading toward the \$10.00 an ounce area in the not-too-distant future.

Silver often occurs as an added attraction in base metal deposits of copper, lead and zinc, where it substantially lowers the cost of extracting the lower priced metals. We expect that more and more attention will be given to silver in the years ahead in view of its rapidly climbing value.

LEAD, ZINC CONSUMPTION RISING

A high level of activity in the North American auto

industry is a major cause of increased consumption of lead and zinc over the past eighteen months. Fairly high inventories of zinc have delayed any sizeable price increase, whereas lead is reaching a shortage-of-supplies situation, resulting in rapidly escalating prices to a current all-time high.

As economic growth accelerates we predict higher prices for lead and zinc, particularly if auto production continues to expand.

Expansion of the Ontario Career Action Program announced

The Ontario Career Action Program (OCAP) will provide 1200 new training positions for Ontario's unemployed youth this fall, the Honourable Harry C. Parrott, DDS, Minister of Colleges and Universities, announced tonight. These positions will be available, for the first time, in private industry, business and service organizations.

OCAP was introduced by Premier William Davis in 1975 to give young people work experience at training positions in Ontario ministries, agencies and community colleges. The results of this program and a successful pilot project in the private sector, have resulted in the decision to expand OCAP both within and outside government, Dr. Parrott said.

"No matter what their educational background, if young people really want to work, OCAP will assist them in getting some experience under their belts," said Dr. Parrott to the Ontario Society for Training and Development.

OCAP gives unemployed young people, aged 16 to 24 and who have left the educational system, the chance to develop practical, marketable skills which are in demand by employers. The program combines on-the-job training with job counselling provided by the trainees' supervisors and OCAP counsellors. During their training period, trainees are encouraged to actively seek permanent employment and are allowed time-off to do so.

A total of \$7.3 million has been allocated to the expanded Ontario Career Action Program in the current fiscal year, Dr. Parrott said. \$2.4 million of this amount will cover stipends to trainees in the private sector.

OCAP trainees will be paid a gross stipend of \$100 a week by the Ontario government. The 1900 young people who fill posts in government or community colleges will have a training period of 26 weeks. For the 1200 trainees with positions in industry, business or service organizations, the length of the training period will be 16 weeks.

We are not asking employers to give jobs to trainees on

completion of their four month training period; we only ask that they give good training and letters of reference so that the young people can get permanent jobs elsewhere, Dr. Parrott said. "We are confident that employers will respond to this opportunity to help alleviate the difficulties of finding permanent employment faced by many young people in the province."

Tips On Buying A Power Boat

Part 2 It's fun, and it's exciting but there are a number of things to consider when you're buying a power boat. So arrange your priorities first.

Be selective. The Allied Boating Association of Canada says, "Do your homework." It's an important purchase, and your dealer will work with you to make sure you're satisfied with your selection. After all, he wants to stay in business and he needs satisfied customers.

Marine motors have an excellent reputation for top performance. There may be some minor changes needed after a few trial runs, but any adjustments are usually well within the warranty period. With reasonable care, you can expect your marine motor to give you many years of good service.

Ask yourself, "How much horsepower do I really need?" It is better to underpower your

boat than to buy a motor that runs away with you, or eats up your budget.

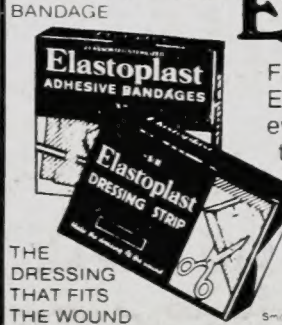

What about extras? Equipment such as a tachometer to monitor your engine's performance, and a water speedometer should automatically be included. Both serve as early warning signs of engine trouble developing, or to indicate a loss in speed for reasons of underwater growth which would drag, or a damaged propeller.

Whether or not this goes without saying—your boat should have comfortable seating for the driver and passengers, with a good line of vision through the windshield at all times.

Again, do some research before you get down to serious decision-making about your investment. Visit a boat or sportsmen's show, consult with boat dealers, and be candid in your own choice. The right selection will mean many hours of sheer boating enjoyment.

Let's Go Boating.

PRONGHORN ANTELOPE

ANTILOPACRA AMERICANA

Once roaming the prairies in numbers rivaling the bison, the pronghorn is now restricted, in Canada, to the adjacent southern corners of Alberta and Saskatchewan. A small, trim animal, standing about 3 ft high at the shoulder...

...the pronghorn is the fastest North American mammal, capable of speeds estimated at 50-60 mph in short bursts. Pronghorns travel in small herds, and signal one another by raising the white hair on their rumps, which flashes in the sunlight for long distances on the prairies. Chief predator is the coyote, while the new-born kids sometimes fall victim to the golden eagle.

Repaving tenders called

TORONTO—Transportation and Communications Minister James Snow announced that tenders have been called for grading, drainage, granular base and hot mix paving on Highway 35 from 0.1 miles north of the south junction of Highway 121 northerly for 2.9 miles; and on Highway 121 from Highway 35 easterly for 0.3 miles.

Tenders will be opened for this project in Ministry headquarters in Downsview July 27.
